PROFESSIONAL SUMMARY

Software Engineer with hands-on experience designing and developing scalable web applications using .NET Core, React.js, and Golang. Strong foundation in backend systems, RESTful APIs, and database design, with practical exposure to DevOps practices including Docker, CI/CD pipelines, and Terraform. Recently led an AI-assisted legacy system modernization initiative focused on scalability, modular architecture, and maintainability.

WORK EXPERIENCE

Software Engineer

Nov 2024 to Present

ez enRoute Pvt. Ltd. (Acquired by **Zonar Systems**, USA)

Rajkot, India · **International Exposure**

- * Designed and developed scalable backend services using .NET Core, supporting RESTful APIs and high-performance application workflows.
- * Built modular, responsive frontend applications using React.js, improving user interaction and data visualization.
- * Designed and optimized PostgreSQL data models, improving query performance and ensuring data consistency.
- * Integrated geospatial and analytical data visualization features to support better business decision-making.
- * Participated in code reviews, debugging, and feature enhancements to maintain high-quality software delivery.
- * Wrote unit and integration tests to improve overall system reliability.

AI and System Modernization Initiative

- * Led a POC to modernize a 5-year-old legacy system using AI-assisted tools, significantly reducing development effort.
- * Redesigned system architecture with a focus on scalability, modularity, and improved UX.
- * Evaluated AI tools for code generation and refactoring to optimize team productivity.

Software Engineer Intern

Jan 2024 to Sep 2024

Improvised Technologies Pvt. Ltd.

Rajkot, India

- * Developed backend services in Golang (Go Fiber) following MVC architecture and built RESTful APIs for scalable workflows.
- * Implemented frontend features using Vue.js and Nuxt.js, ensuring seamless API integration.
- * Containerized applications using Docker for consistent development and deployment environments.
- * Gained hands-on experience with CI/CD pipelines and contributed to open-source projects by resolving issues.

Freelance Website Designer and Developer

Sep 2022 to Nov 2022

Self-Employed · Client: **Unfiltered Gup-shuP**

Remote

- * Designed and developed a full WordPress website for Unfiltered Gup-shuP, an open mic events platform, using Elementor.
- * Built a responsive, intuitive UI ensuring a seamless experience across desktop and mobile devices.
- * Integrated a blog module to support content publishing and drive community engagement.
- * Independently managed end-to-end delivery from requirements gathering to final deployment.

Shopify Developer

Apr 2020 to Sep 2021

Vertex Dimension

Remote · International Client

- * Developed and customized Shopify stores using Liquid, implementing business-specific workflows and logic.
- * Optimized product workflows and backend logic, improving platform performance and usability.

TECHNICAL SKILLS AND EDUCATION

Languages:	C#, Golang, Python
Frameworks:	.NET Core, React.js, Vue.js, Nuxt.js
Backend/APIs:	REST APIs, Microservices, System Design, Scalable Architecture
Cloud/DevOps:	Docker, CI/CD, Terraform, Linux
Databases:	PostgreSQL, MySQL, SQLite
Other:	AI-assisted development, Open-Source Contribution

Master of Computer Applications (MCA)

Marwadi University, Rajkot

2022 to 2024 | CPI: 7.86 / 10

Bachelor of Computer Applications (BCA)

Christ College, Rajkot

2019 to 2022 | CGPA: 8.53 / 10

Gold Medalist - Top Academic Performer

CERTIFICATIONS

- * Career Essentials in Generative AI by Microsoft and LinkedIn
- * Google Cloud Big Data and Machine Learning Fundamentals by Coursera
- * AWS Cloud Technical Essentials by Coursera
- * Project Management Fundamentals by IBM

ACHIEVEMENTS

- * Gold Medalist in BCA, top academic performer across the entire batch.
- * Hackathon participant, built a real-time solution leveraging CCTV feeds and image detection systems.
